

Good food. Better decisions.

Your kitchen has more
possibilities than you think.

A cooking companion designed for Alexa+

AN EVERYDAY MOMENT

Dinner starts with a possibility

A few vegetables. A busy evening.
Something delicious waiting to
happen.

**“What can I cook with what I
have?”**

A better use for everyday food

1.05

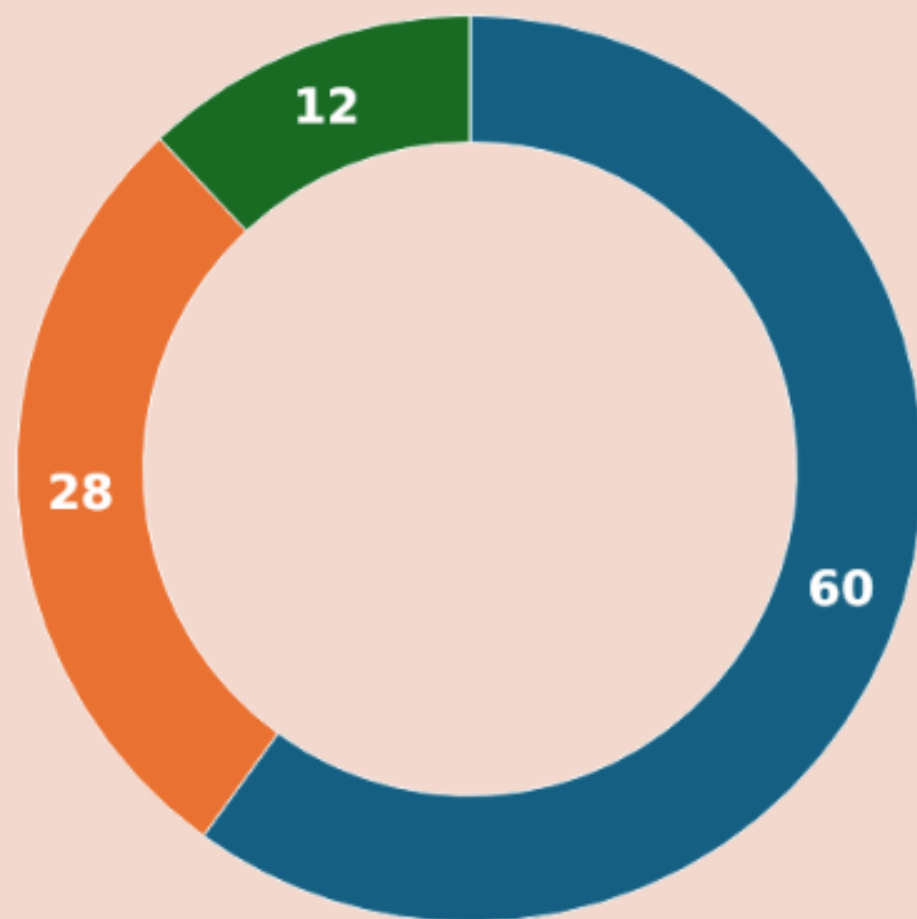

billion tonnes

of food waste worldwide in 2022

19%

of food available
to consumers

The kitchen is a place to begin

60%

happens at home

28% food service
12% retail

Share of global food waste by sector, 2022. Source: UNEP Food Waste Index Report 2024.

MEET MISE

Your pantry, full of potential

MISE connects the ingredients you have with curated recipes and a plan for what to cook next.

**Good meals begin with what is
already here.**

THE HUMAN EXPERTISE BEHIND MISE

Created by a professional chef

Anna Tchijova brings her original craft to MISE: culinary technique, care for ingredients and the discipline of a working kitchen.

The culinary judgment has a human origin.

A little help, through the whole meal

01

Know

What is on hand
and what to use first

02

Plan

Meals that fit
your week

03

Cook

Guidance that keeps
your place

04

Enjoy

Food worth
sitting down for

PANTRY BY VOICE

A pantry you can talk to

Tell MISE what you added, used or changed. Its ingredient history keeps your kitchen context together.

“I used the last of the spinach.”

Every ingredient has a story

CONFIRMED

You told MISE what is there.

INFERRED

MISE keeps the estimate visible.

TIME TO CHECK

A quick confirmation refreshes the picture.

A WEEK THAT MAKES SENSE

Tonight's dinner. Tomorrow's plan.

Build the week around your pantry,
your available time and the
ingredients that need attention first.

Every meal comes with a reason.

MORE POSSIBILITIES FOR YOUR INGREDIENTS

A delicious next step

Zero Waste finds curated recipes that use food already on hand, prioritizing ingredients due soon.

**A suggestion can become
tonight's meal.**

CULINARY LEARNING

A small lesson. A new possibility.

Recipe suggestions can come with a technique lesson. Learn a little while preparing something you want to eat.

**The “why” belongs beside the
“how.”**

CURIOSITY KEEPS GROWING

Even the scraps can inspire

Ingredient-specific regrowing tips
bring another small discovery to the
kitchen windowsill.

A COMPANION WHILE YOU COOK

Stay in the moment

Cooking sessions keep track of steps, timers and the changes you report. Ask where you left off and keep going.

“Where am I in the recipe?”

Culinary care in every answer

The right swap for the right job

Curated substitutions account for an ingredient's role and technique.

Nutrition with clear context

Ingredient values come with their coverage and source context.

The shopping list follows the plan

01 Plan the meals

Use the pantry as your starting point.

02 Review the gaps

See the ingredients still needed.

03 Shape the cart

Edit the demo cart and review its totals.

04 You decide

Checkout asks for explicit confirmation.

THE EXPERIENCE WE ARE BUILDING

More room for the meal

The product ambition is simple: make everyday cooking feel more manageable, more interesting and more worth sharing.

Warm conversation. Precise decisions.

CONVERSATIONAL LAYER

- Understands the request
- Chooses the tools
- Explains the result

MISE SERVER

- Maintains kitchen state
- Runs deterministic planning
- Uses curated culinary data

MCP connects the conversation to the kitchen logic.

BUILT FOR THE ALEXA+ ECOSYSTEM

A kitchen companion with depth

19

MCP tools

Pantry, planning and cooking

4

MCP App views

Pantry, weekly plan, cart and cooking

10

Agent Skills

Instructions for thoughtful tool use

The product comes alive in the demo

**Ask about
the pantry**

**Build a plan
with reasons**

**Open a view.
Start cooking.**

Own web simulator connected to the real MISE MCP server

Live structured results and MCP Apps host interaction
